NEWS RELEASE

'Pardus' Carbine Stock

Cutting Edge Buttstock From DPMS!

Make your shooting experience more enjoyable with the addition of an innovative new buttstock design from DPMS! Made of a space age, lightweight, fiber reinforced black Zytel; the buttstock has four integral slots for sling attachment, in addition to the standard sling swivel, making it completely customizable to the needs of both left-handed and right-handed shooters. Customize your length of pull with the 6-position buffer tube; both the standard 6-position tube and the Mil-Spec tube are available with this design. Adjusting the tube with cold or gloved fingers just got easier too as DPMS has designed a more ergonomically shaped latch with fully integrated finger grooves. Shooters will also notice the curved, saw-tooth buttplate. The curved plate allows the shooter to pull the rifle to the shoulder more securely, providing for a tighter cheek weld to the comfortably flared, Monte Carlo-style cheek rest. Law enforcement and military personnel who routinely wear Kevlar will appreciate this insightful design element. One final design element that everyone, especially those who have inadvertently dropped the rifle on its buttstock, will appreciate is the reinforced area surrounding the latch pin. This reinforced area will provide additional strength to the latch pin and help it resist breakage should the rifle ever be dropped buttstock down.

Available now, this new tactical carbine length black buttstock assembly will retail for $69.95 (CS-PS) and includes the stock, buffer, buffer spring, lock plate and locking ring. An OD Green and a Tan assembly are also available at $74.95.

DPMS is an industry leader in providing quality AR-style rifles, components and accessories. No other company offers more styles or configurations of AR rifles. DPMS also provides choices for high-power and small-bore shooters by offering several rifles chambered in .204 Ruger, .22LR, .223 Remington/5.56x45mm, 7.62x39mm, 6.8x43mm SPC, .243 Winchester, .308 Winchester, .260 Remington and .300 Remington SAUM.
